

# Marlboro Neighborhood Networks

## Marlboro needs a few good Organizers and Coordinators!

The Neighborhood Networks program is an Emergency Management supported system for encouraging communications among residents of Marlboro. It is intended as a system for sharing information between the town and residents, especially during disasters and other emergencies.

In order to get Neighborhood Networks going, we need Area Organizers and Neighborhood Coordinators.

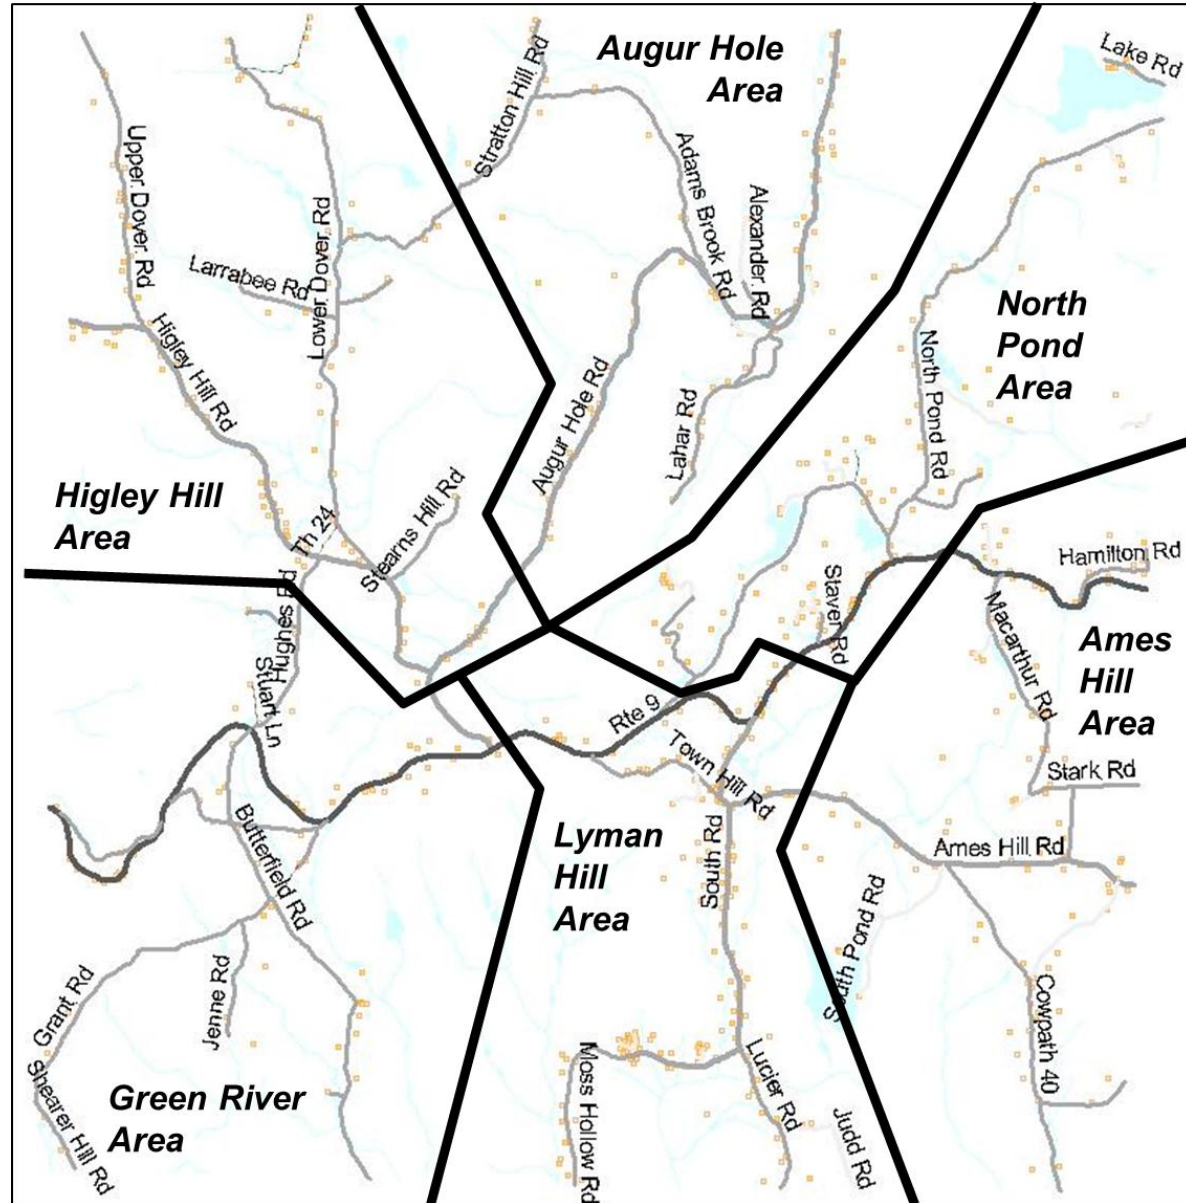

What do Area Organizers do?

- Recruit and support Neighborhood Coordinators
- Distribute Town information to Neighborhood Coordinators as required
- Request and report Neighborhood information for the Town during emergencies
- Attend annual committee meetings

What do Neighborhood Coordinators do?

- Organize communications trees within their Neighborhoods
- Distribute information from Area Organizers to residents as required
- Report Neighborhood information to Organizers during emergencies

Contact Glenn Herrin, the Emergency Management Director, at 254-1060 or [gherrin.emd@comcast.net](mailto:gherrin.emd@comcast.net) to volunteer or ask questions!

*Initial map as of June 8, 2012 – may change significantly over time!  
Area Organizers will adjust boundaries as desired/required*
